DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention: Species of figures 1-6; Species of figures 7-10; Species of figures 11A-11C; Species of figures 12A and 12B; Species of figure 14A; Species of figure 14B; Species of figures 14C; Species of figure 14D; Species of figures 15A and 15B; Species of figures 16A-16D; Species of figures 17A and 17B; Species of figures 18A and 18B; Species of figures 18C and 18D; Species of figure 19A; Species of figure 19B; Species of figure 19C; Species of figure 19D; Species of figures 20A and 20B; Species of figure 20C; Species of figure 21A; Species of figure 21B; Species of figures 22A and 22B; Species of figures 23A and 23B; Species of figures 24A and 24B; Species of figures 25A-25C; Species of figures 26A and 26B; Species of figures 27A and 27B; and etc

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
